Business Overview

- Founded in 1924 and headquartered in Courbevoie (La Défense), France, TotalEnergies SE is one of the world's leading integrated energy companies.
- Engages across the full energy value chain, from upstream oil and gas and LNG to refining, chemicals, marketing & services, and power and renewables.
- Operates in over 130 countries, with a diversified and balanced portfolio spanning hydrocarbons and low-carbon energy sources.
- Recent strategic priorities include expanding LNG capacity and low-carbon power, supported by acquisitions of U.S. gas assets and European renewables developers in 2023.
