Business overview

Founded in 2008 and headquartered in Paris, Neoen is a leading French independent producer of renewable energy, active in the development, financing, construction, and operation of large-scale clean energy assets.

Neoen operates across solar, onshore wind, and battery storage, with a portfolio of utility-scale PV farms, high-capacity wind parks, and grid-stabilizing storage systems, including several flagship “big battery” projects.

The Company integrates development, engineering, construction oversight, asset management, and energy trading in-house, ensuring strong operational performance and compliance with international renewable standards.

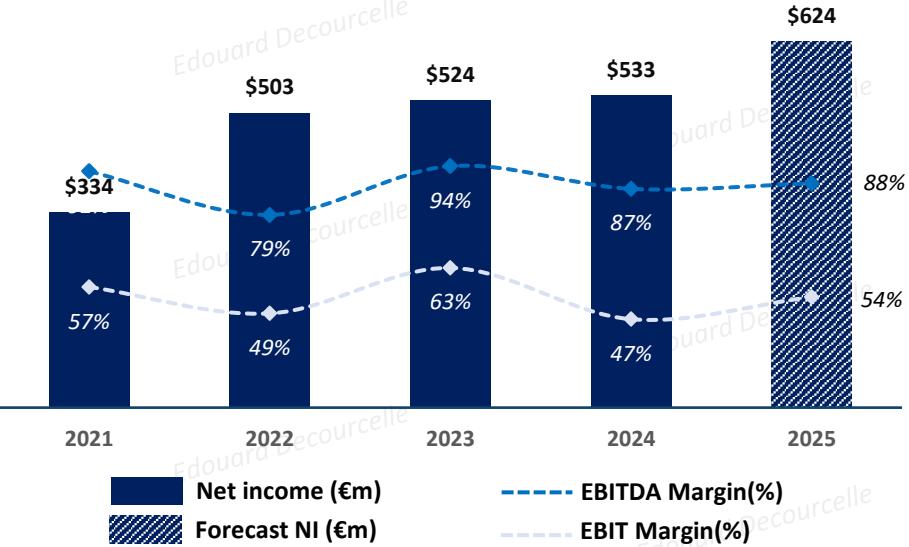

Neoen employs over 450 people across more than 15 countries, with major hubs in France, Australia, Finland, Mexico, and Portugal, and is recognized for its strong sustainability commitments.

Key developments of ECP

- New PPAs in Finland (Equinix – 102 MW), Sweden (H&M – 90 MWp and Coveris – 34 MW)
- Nearly 500 MW of solar and wind projects awarded in France's government tenders
- Construction start of Collie Battery Stage 2 (341 MW / 1,363 MWh)
- First contract won in Canada, for a 4-hour new battery (380 MW) to be built in Ontario
- Acquisition by Brookfield of the entire share capital of Neoen
